Professional Summary

Computer Science undergraduate specializing in Cybersecurity with a CGPA of 8.58 and hands-on experience in software development, application security and AI-based projects through internships and academic projects. Skilled in Python, Java, web technologies, databases and cybersecurity fundamentals with strong analytical and problem-solving abilities. Interested in building scalable software solutions and continuously learning emerging technologies.

Technical Skills

Programming Languages: Python, Java, C, JavaScript

Web Technologies: HTML, CSS, JavaScript

Cloud & Tools: AWS Cloud, Firebase, GitHub, VS Code

Databases: MySQL, SQLite

Cybersecurity Tools: Burp Suite, Nmap, SQLMap, OWASP ZAP, Nikto

Core Concepts: DSA, OOPs, DBMS, SDLC, Computer Networks

Experience

Digival IT Solutions – Cyber Security Analyst Intern | [View Credentials](#)

Jun 2025 – Aug 2025

- Performed web application security testing using Burp Suite and OWASP ZAP
- Identified vulnerabilities including SQL Injection and XSS
- Documented findings and remediation recommendations

ATEM Software Solutions - Cyber Security Analyst Intern | [View Credentials](#)

Jun 2025 – July 2025

- Worked on an AI-based Speech Emotion Recognition system using Python for security-related applications
- Assisted in audio feature extraction and machine learning model analysis
- Contributed to real-time emotion analysis and project documentation

Maestrominds - React Native Developer Intern | [View Credentials](#)

Jan 2025

- Assisted in developing mobile application features for Android and iOS platforms
- Worked on reusable UI components and basic frontend functionality

Projects

PhonoSec – Speech Emotion Recognition on Videos | Python, TensorFlow, Flask

- Built an AI-powered speech emotion recognition system for Video analysis
- Applied machine learning and audio feature extraction techniques
- Developed Flask-based backend integration for real-time inference

Orion – Optimized Routing & Fleet Operations | Python, Node.js, React.js, MySQL

- Developed a route optimization system using data-driven decision techniques
- Integrated traffic and fuel optimization factors into routing workflows
- Secured 2nd place in a project expo and finalist position in a hackathon

ScrapZap – Mobile E-Waste & Scrap Management App | Flutter, Firebase, Python

- Developed a mobile-based e-waste management platform
- Implemented authentication and secure data handling features
- Designed workflows for scrap collection and management operations

Education

Sri Sai Ram Institute of Technology (Sairam Group of Institutions)

May 2023 – Present

Bachelor of Engineering – BE in Cyber Security | Tambaram, Tamil Nadu
CGPA: 8.58

Sri Sankara Matriculation Higher Secondary School

Mar 2023

Computer Science | Thiruvananthapuram, Tamil Nadu
Grades: 12th – 87.33%, 10th – 100%

Achievements & Leadership

- Chairman - IEEE SMC Society
- Coordinator - IEEE YESIST12
- Finalist - Deep Blue Hackathon
- Finalist - IEEE YESIST12
- Solved 50+ coding problems across CodeChef and coding practice platforms

Certifications

- AWS Cloud Computing - [View Credentials](#)
- AWS Educate Generative AI - [View Credentials](#)
- IBM SkillBuild Generative AI – [View Credentials](#)
- Accenture Innovation Challenge – [View Credentials](#)
- Google Developer Groups – Campus Solution Challenge - [View Credentials](#)
- Google - certified Cyber Security Analyst - [View Credentials](#)
- TCS iON – Interview Skills - [View Certificate of Appreciation](#)
- Microsoft Visual Studio Web Development Fundamentals - [View Credentials](#)
- Cisco - Cyber Security Course - [View Credentials](#)
- NPTEL - Introduction to Internet of Things - [View Credentials](#)
- NPTEL - Software Conceptual Design - [View Credentials](#)
