Professional Summary

Computer Science undergraduate specializing in Cybersecurity with a CGPA of 8.58. Strong foundation in programming, databases, software development, and Agile methodology, supported by hands-on experience through internships and projects. Keen to understand how technology drives real-world business systems, and motivated to build a career through continuous learning and meaningful contributions in a collaborative environment.

Technical Skills

Programming: Python, Java, C

Web: HTML, CSS, JavaScript

Tools & Platforms: GitHub, Firebase, VS Code, Figma

Cybersecurity Tools: Burp Suite, Nmap, SQLMap, OWASP ZAP, Nikto

Databases: MySQL, SQLite

Concepts: Data Structures & Algorithms, SDLC, Business Process Understanding, Web Development, Basic CI/CD, Application Security Fundamentals

Experience

Digival IT Solutions – Cyber Security Analyst Intern | [View Credentials](#) Jun 2025 – Aug 2025

- Performed web application security testing to identify vulnerabilities such as SQL injection and XSS
- Analyzed findings and documented risks with suggested improvements
- Gained exposure to real-world application behavior and security practices

ATEM Software Solutions - Cyber Security Analyst Intern | [View Credentials](#) Jun 2025 – July 2025

- Contributed to development of a speech emotion recognition system for security applications
- Worked on integrating AI-based analysis into practical use cases
- Improved analytical and problem-solving skills through project work

Maestrominds - React Native Developer Intern | [View Credentials](#) Jan 2025

- Developed mobile applications for Android and iOS platforms
- Built reusable UI components and worked on client-based features

Prodigy InfoTech - Web Developer Intern | [View Credentials](#) Jun 2024

- Developed responsive web applications using HTML, CSS and JavaScript
- Worked with modern design practices for usability and performance

TechnoHacks EduTech Official - Cyber Security Analyst Intern | [View Credentials](#)

Apr 2024 – May 2024

- Monitored network activity and analyzed logs for unusual patterns
- Assisted in basic security assessments and reporting

Projects

Orion – Optimized Routing & Fleet Operations | Python, Node.js, React.js, MySQL

- Developed a system to improve route efficiency using data-driven logic
- Integrated real-time considerations like traffic and fuel usage
- Recognized as 2nd place in a project expo and finalist in a hackathon

PhonoSec – Speech Emotion Recognition on Live Calls | Python, TensorFlow, Flask

- Built a machine learning model to detect emotions from voice input
- Applied feature extraction techniques for improved performance

ScrapZap – Mobile E-Waste & Scrap Management App | Flutter, Firebase, Python

- Created a mobile platform for managing scrap collection and resale
- Implemented user authentication and secure data handling

Vibrant Success App – Productivity & Learning Platform | Node.js, MongoDB, REST APIs

- Developed backend services and APIs for a learning and productivity app
- Implemented authentication and scalable system design

Education

Sri Sai Ram Institute of Technology (Sairam Group of Institutions)

May 2023 – Present

Bachelor of Engineering – BE in Cyber Security | Tambaram, Tamil Nadu
CGPA: 8.58, PGPA: 6.93

Sri Sankara Matriculation Higher Secondary School

Mar 2023

Computer Science | Thiruvananthapuram, Tamil Nadu
Grades: 10th – 100%, 12th – 87.33%

ACHIEVEMENTS & LEADERSHIP

- Finalist – Deep Blue Hackathon
- Finalist – IEEE YESIST12
- Coordinator – IEEE YESIST12
- Chairman – IEEE SMC Society

Certifications

- AWS Cloud Computing - [View Credentials](#)
- IBM SkillBuild Generative AI – [View Credentials](#)
- NPTEL - Introduction to Internet of Things - [View Credentials](#)
- Google - certified Cyber Security Analyst - [View Credentials](#)
- Microsoft Visual Studio Web Development Fundamentals - [View Credentials](#)
- Cisco - Cyber Security Course - [View Credentials](#)
- TCS iON – Interview Skills - [View Certificate of Appreciation](#)
- Deep Blue Hackathon Finalist - [View Certificate of Appreciation](#)
- NPTEL - Software Conceptual Design - [View Credentials](#)
- Udemy – Python and Flask framework - [View Credentials](#)

ADDITIONAL

- Strong problem-solving and analytical thinking
- Good communication and teamwork skills
- Willing to learn new technologies and adapt to different roles
- Open to relocation and working in team-based project environments
