

MAESTROMINDS INTERNSHIP

NAME: Safiya Bi A

COLLEGE: Sri Sairam Institute of Technology

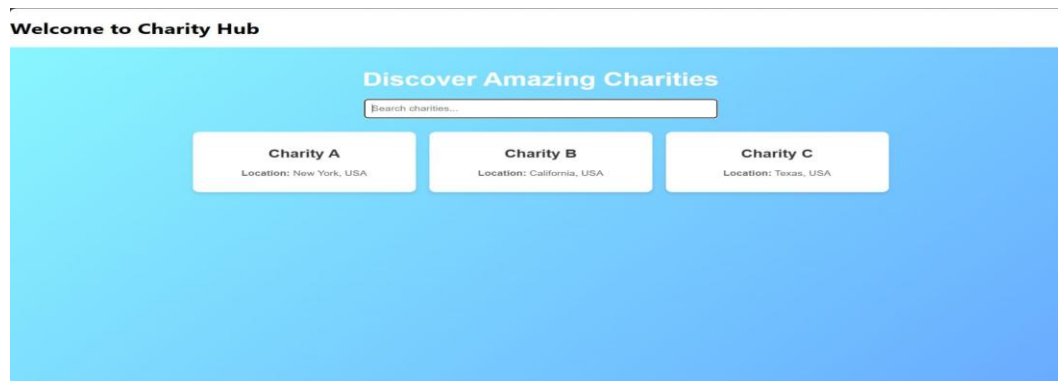

DEPARTMENT: BE CSE (Cyber Security)

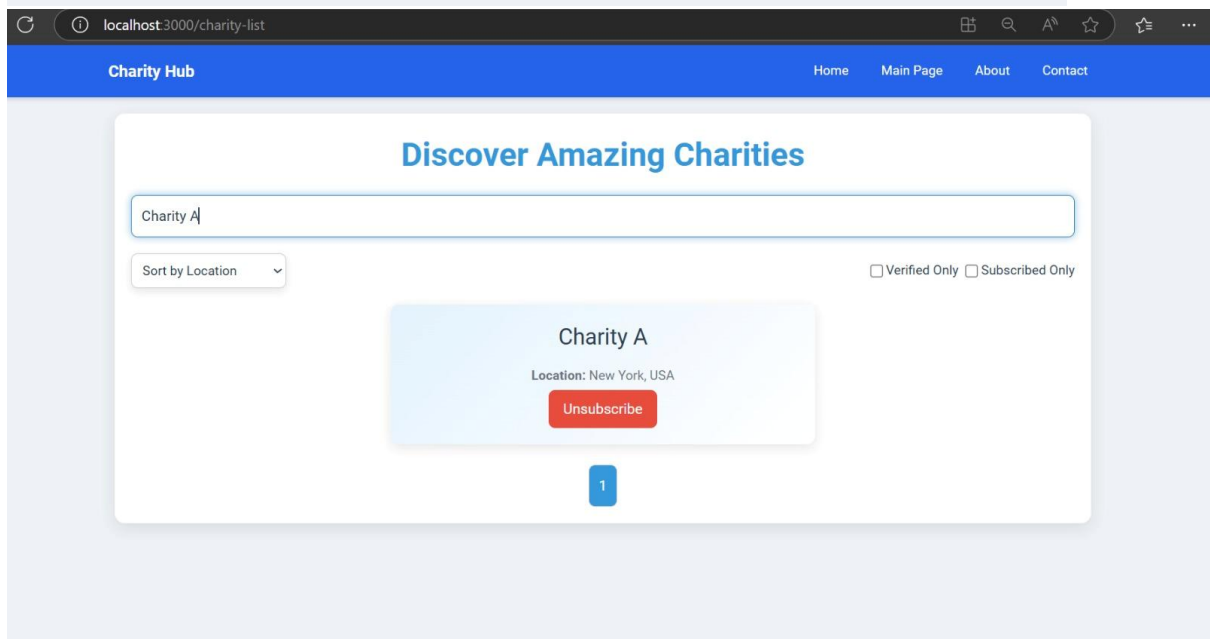

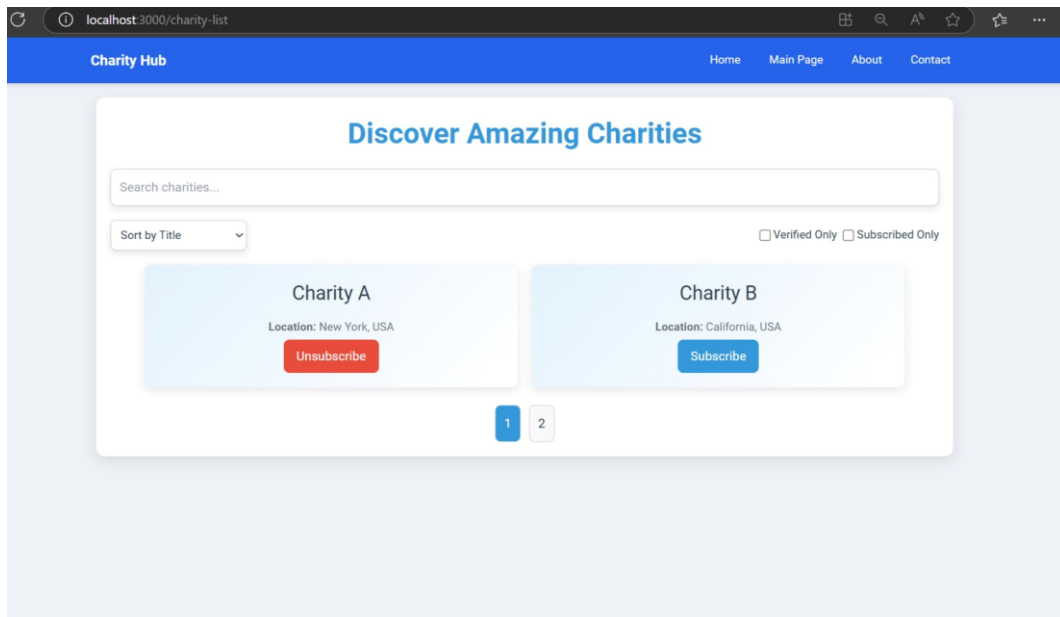

EMAIL: safiyaaneez27@gmail.com

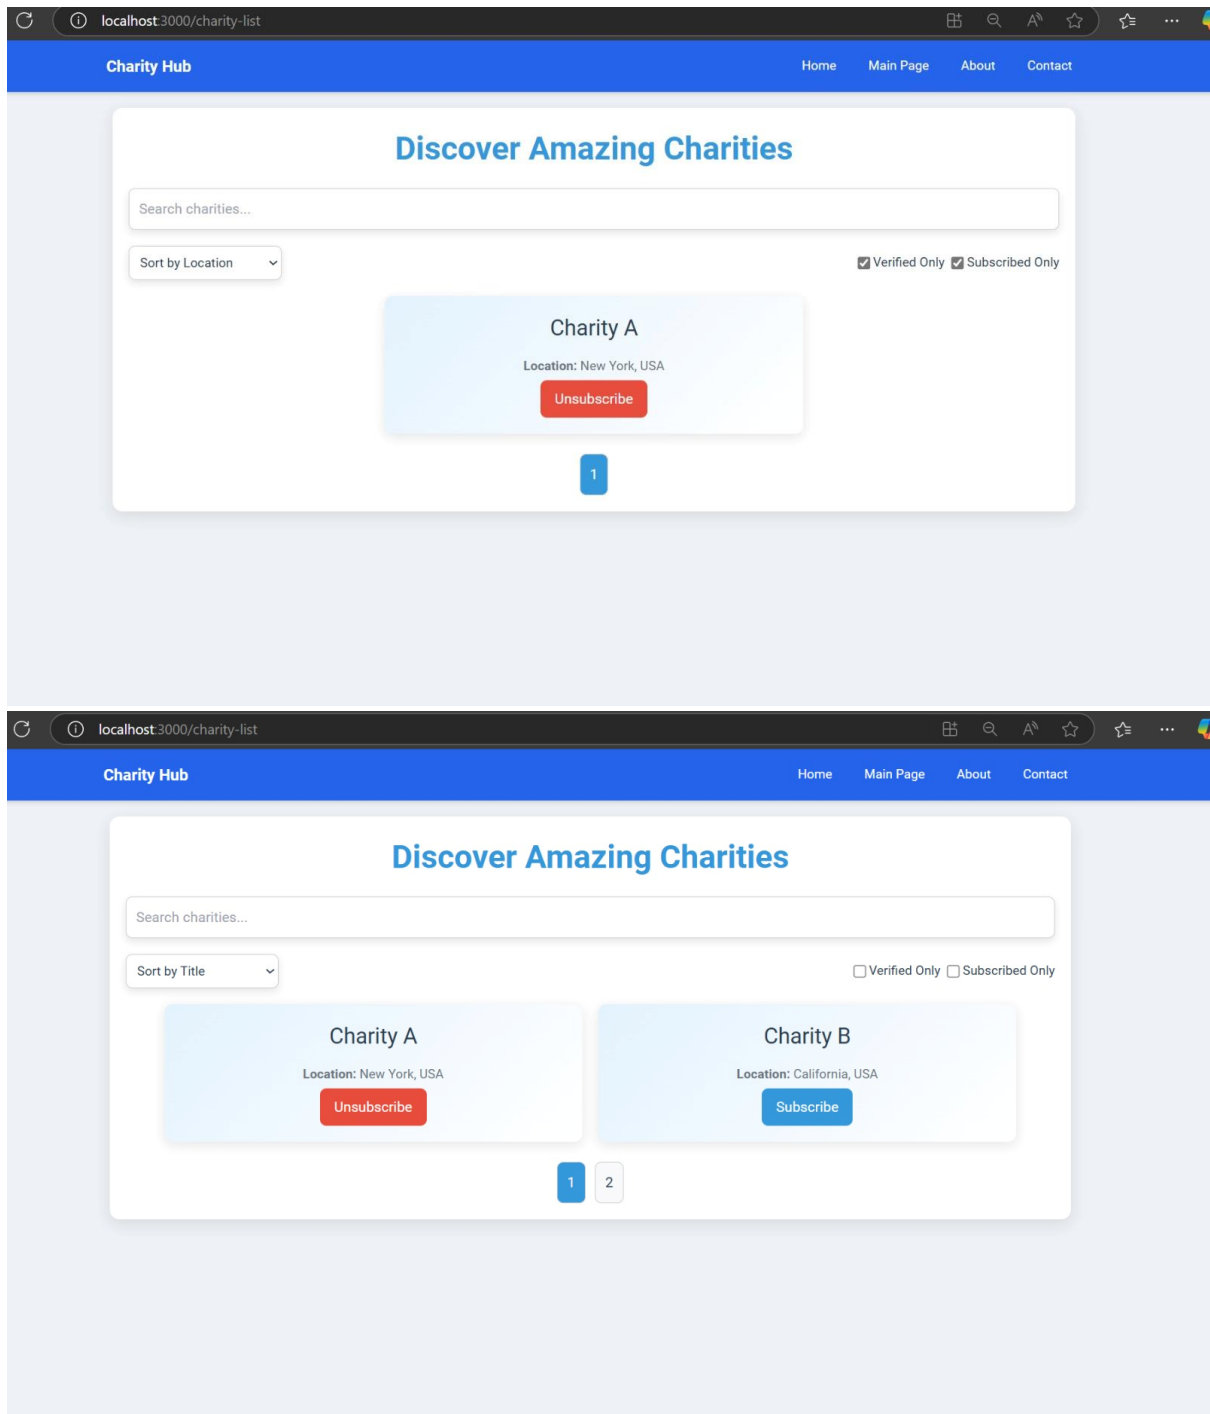

My Learnings:

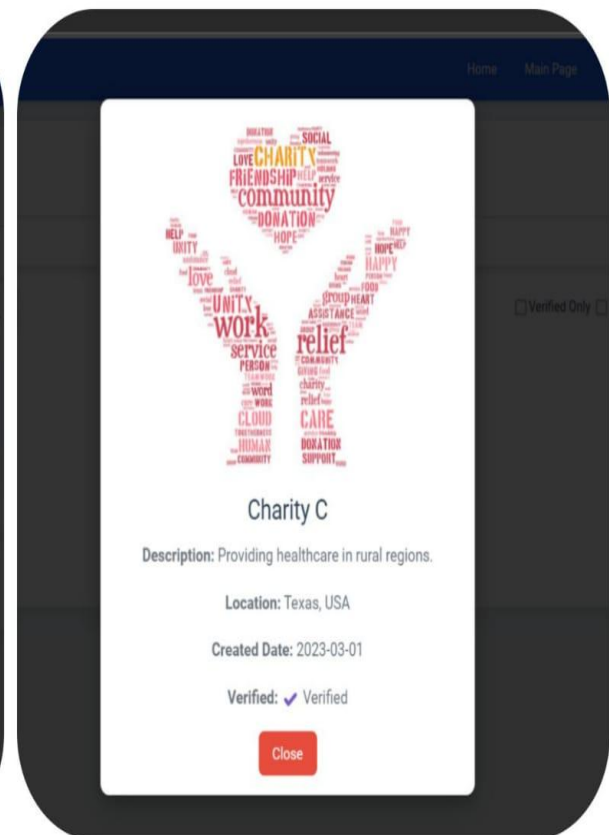

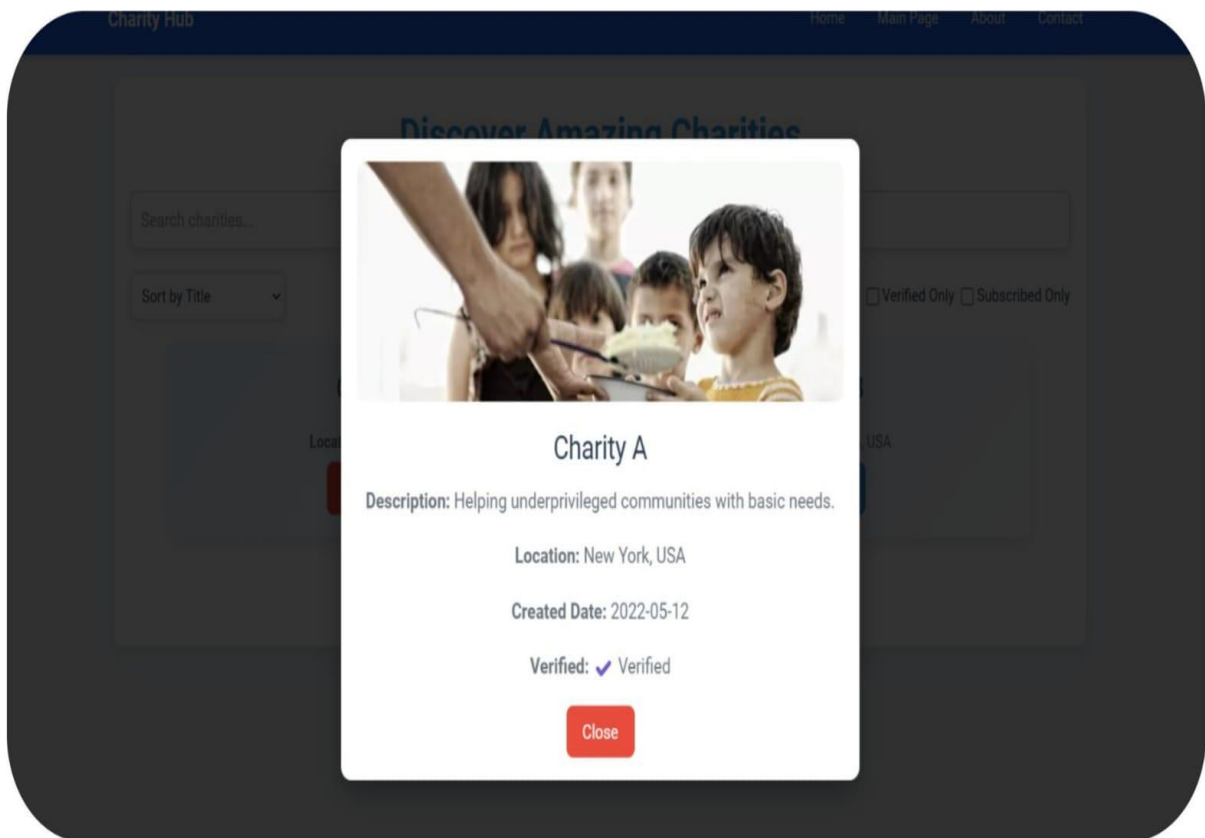

I acquired a lot of hands-on experience with building and managing a React application through this Internship. I was involved in the designing of a responsive UI and also in implementing some interactive features. I enhanced my understanding of integrating APIs seamlessly with a React frontend. I learned about Git for version control, resolving conflicts, making branches, and managing a remote repository. Overall, this Intern improved my problem-solving skills as it included real-life problems such as filtering, pagination, and management of user interaction. It was an all-round learning experience which developed my integration skills in the frontend and backend.
